REMOVING OUTLIERS

```
In [27]: x = numericdata[numericdata['TOT_SALES']<8.000]
```

```
In [31]: sns.distplot(x.TOT_SALES, kde = True)
```

C:\Users\98pra\AppData\Local\Temp\ipykernel_12856\372233009.py:1: UserWarning:

`distplot` is a deprecated function and will be removed in seaborn v0.14.0.

Please adapt your code to use either `displot` (a figure-level function with

similar flexibility) or `histplot` (an axes-level function for histograms).

For a guide to updating your code to use the new functions, please see <https://gist.github.com/mwaskom/de44147ed2974457ad6372750bbe5751>

```
Out[31]: sns.distplot(x.TOT_SALES, kde = True)
<Axes: xlabel='TOT_SALES', ylabel='Density'>
```

```
In [32]: sns.boxplot(x.TOT_SALES)
```

```
Out[32]: <Axes: >
```
